Trusted Globally

After 5 months evaluating AI tools, Lucio proved unmatched.
Across identical searches, research, and drafting, it outperformed
consistently.

Scott Alderton

Partner at Stubbs Alderton & Markiles, LLP

Lucio has become integral to how our commercial team handles
document review. For corporate due diligence, it's saved
significant time working through large document sets. Our dispute
resolution team turns to it regularly, and for uploading, sifting
through, and analysing documents, it's made the whole process
much more manageable.

Kevin Cooper

CEO at HadeF & Partners

With Lucio,

- Research is grounded in millions of court records
- Fact packets become structured chronologies instead of
scattered notes
- Trends and throughlines are identified rapidly

With Lucio's AI tools and depth of support, we're simply servicing
our clients better
